STARS BATTLE

Stars Battle is a spaceship-inspired universe where anyone can earn tokens through skilled gameplay and contributions to the ecosystem. Players can battle, collect, and update a their Spaceship.

While Stars Battle is a fun game, it's also taken on characteristics of a social network and jobs platform due to the strong community and play to earn opportunities that have come from its early success.

The key difference between Stars Battle and a traditional game is that Blockchain economic design is used to reward our players for their contributions to the ecosystem. This new model of gaming has been dubbed "play to earn". Stars Battle has attracted thousands of players from developing countries in the pursuit of a new income stream during the Covid pandemic. Many of these players are fathers, aunts, and even grandparents who have never used Blockchain technology before!

Players can earn by:

Competing in \$STARS battles to win leaderboard prizes.

Selling them on the marketplace after received reward.

Collecting on rare spaceship such as Origins.

These can be sold on exchanges such as Uniswap and PancakeSwap.

Starting in 2021 players can earn a governance token STARS, which represents a real slice of the game universe as it has governance rights and fee sharing built into it. Since players can earn this token by playing, a Ready Player one type quest emerges where players can actually earn part of the universe. However, these quests are not winner takes all and rewards each player based on their effort and skill.

Stars Battle's Mission

Stars Battle was built as a fun and educational way to introduce the world to blockchain technology. Many of the original team members met playing Crypto kitties, and it was their first time ever using Blockchain for anything other than pure speculation. They soon started working on Stars Battle to introduce the magic of Blockchain technology to billions of players.

The Vision

We believe in a future where work and play become one.

We believe in empowering our players and giving them economic opportunities.

Most of all, we have a dream that battling and collecting cute creatures can change the world.

Welcome to our revolution.

HOW TO GAME PLAY

I. SPACESHIP:

Player must own at least 1 Spaceship universe to play the game, you can buy a Spaceship at Marketplace or NFT Market.

The default Spaceship is sell at the marketplace for 1000 \$STARS, the level in the game is 1, the number of bullets is 1000 and the VIP level is 0.

Spaceship selling on NFT Market are resell by other Player, so the selling price and parameters will be different.

Player can buy different Spaceships to play more games.

II. BULLET

Bullet is the number of bullets left in each spaceship, when Bullet = 0 means the Spaceship has no more bullets and will not be able to play the game.

When your spaceship runs out of ammo you can buy more ammo at Marketplace for 1000 Bullet = 100 \$STARS or you can also buy Bullet on NFT Market.

III. VIP

There are 3 VIP levels for spaceships, the default level is 0.

The 2nd VIP level is 1 you will be refunded 50% of the bullets fired after each die or next level. The 3rd VIP level is 2 you will be refunded 70% of the bullets fired after each die or next level.

IV. REWARD

After each level you pass you will receive a reward with a certain \$STARS token, the higher level more than rewards.

Particularly at levels 5, 15, 25 you will war with a super boss with quite high combat power. When you pass you will receive an additional item bullets of 5000, 7000 and 10,000 respectively.

V. BUY BACK

When you pass level 3 you will be able to trade on NFT market, Marketplace.

When you pass level 25 you can resell the spaceship for \$25,000 STARS token (25 times the original value you bought) or sell it on the Marketplace for a higher price.

When you pass level 50 you can resell the spaceship for \$50,000 STARS token(50 times the original value you bought) or sell it on the Marketplace for a higher price.

When you pass level 100 you you can resell the spaceship for 100,000 \$STARS token(100 times the original value you bought) or sell it on the Marketplace for a higher price.

You can sell any currency as ETH, BNB ...

VI. LEVEL

Here is the score you need to pass each level and the average number of ammo required for you to do this.
